

Agency: Commerce, Community and Economic Development**Grants to Municipalities (AS 37.05.315)****Grant Recipient: Anchorage****Project Title:**

Anchorage - Rabbit Creek Elementary Class Room Laptop Computers

State Funding Requested: \$ 15,000**House District: 31 - P**

Future Funding May Be Requested

Brief Project Description:

Purchase of laptop computers and computer related software and hardware.

Funding Plan:**Total Cost of Project: \$15,000**Funding Secured*Amount FY*Other Pending Requests*Amount FY*Anticipated Future Need*Amount FY*

There is no other funding needed

Detailed Project Description and Justification:

Description: Purchase of 10 laptop computers with related software & site licensing for classroom use with digital projectors and the Purchase 30 adjustable chairs for computer lab.

Rabbit Creek Legislative Grant Proposal, February 2008 (Anchorage School District)

Llaptop Computers \$13,990

Software & Site Licensing \$910

PROJECT COSTS TOTAL \$15,000

Justification: Rabbit Creek is an old school (1959), which requires constant maintenance and upkeep to maintain the standards of other local schools. The staff and community have worked very hard in attempting to keep Rabbit Creek current with learning technology. Several fundraisers over the last three years have allowed Rabbit Creek to upgrade its computer lab and begin the purchase of laptops for teachers to replace older technology. The laptops will allow home use by teachers, as well as provide the flexibility needed to utilize digital projectors and new Smartboard technology secured through grants.

How will this project meet Anchorage School District program goals?

Increase student academic achievement through the use of current technology and software in order to meet Alaska Standards in Technology as well as utilizing the lab for research, writing projects, and develop skills for the 21st Century.

What will be the benefits of this project if completed? Impacts if not completed?

Total Project Snapshot Report

FY 2009 Capital Budget

TPS Report 47326

This will help our school comply with the No Child Left Behind ACT. Last year our school failed to meet Annual Yearly Progress (AYP) as measured by Alaskan Standards Based Assessments. Students and teachers need current technology to support curriculum. We currently utilize our lab for tutoring students who are not proficient on state tests, and would like to offer additional after-school programs. We have secured three interactive Whiteboards through grant funds, and would like to use them for both teacher training and student lessons. We need more students to have access to current technology.

Project Timeline:

Purchase and installation finished FY09. Capital Funding will be expended in FY09.

Entity Responsible for the Ongoing Operation and Maintenance of this Project:

Anchorage School District

Application
Performance

Up to 25% faster

Featuring the powerful Intel Core 2 Duo processor, MacBook performs up to 25% faster than the previous model.*

Performance Benchmark	MacBook Core Duo 2.0GHz	MacBook Core 2 Duo 2.0GHz	△
SPECint_rate_base2000 integer calculation (estimate)	31.9	39.8	25%
SPECfp_rate_base2000 floating-point calculation (estimate)	26.8	32.6	22%

MacBook Application Performance

Two processors, one chip

The Intel Core 2 Duo features two fast processor cores built into a single chip. More than an evolution of processor design, Intel Core 2 Duo is an order-of-magnitude leap forward. With circuitry so unimaginably small, the Intel Core 2 Duo achieves far higher levels of performance while consuming less power than two separate processors.

1. (1) 1GB = 1 billion bytes; actual formatted capacity less. *Testing conducted by Apple in October 2006 using preproduction MacBook units with Core 2 Duo; MacBook systems with Core Duo were shipping units. SPEC®, SPECfp®, and SPECint® are registered trademarks of the Standard Performance Evaluation Corporation (SPEC); see www.spec.org for more information. On a 2.0GHz Core 2 Duo–based MacBook, GarageBand showed a 20% performance improvement, playing 24 reverb plug-ins, compared to 20 reverb plug-ins played on a 2.0GHz Core Duo–based MacBook. Performance tests are conducted using specific computer systems and reflect the approximate performance of MacBook.
 1. (1) 1GB = 1 billion bytes; actual formatted capacity less.
 2. (2) Both MacBook and MacBook Pro use 667MHz DDR2 SDRAM (PC2-5300) memory.
 3. (3) Combo drive plays CDs and DVDs, and burns CDs. SuperDrive plays and burns both CDs and DVDs.
4. (4) Memory available to Mac OS X may vary depending on graphics needs. Minimum graphics memory usage is 80MB, resulting in 432MB of system memory available in 512MB configurations and 944MB in 1GB configurations.
 5. (5) DVI to VGA adapter included with MacBook Pro; other adapters sold separately.
6. (6) Battery life depends on configuration and use. Rechargeable batteries have a limited number of charge cycles and may eventually need to be replaced. Battery life and number of charge cycles vary by use and settings. See www.apple.com/batteries for more information.
7. (7) Actual weight varies by configuration and manufacturing process.

The ultrathin, ultrabright widescreen wonder.

Intel Core 2 Duo processor

Powered by the latest generation of Intel processors, every new MacBook is even faster than the previous generation.²

Built-in iSight camera

Right out of the box, you can have a video chat with friends or family,³ record a video at your desk, or take fun pictures with Photo Booth.

Sleek, 1.08-inch thin design

MacBook makes it easy to hit the road thanks to its tough polycarbonate case, built-in wireless technologies, and innovative MagSafe Power Adapter that releases harmlessly if someone accidentally trips on it.

Front Row & Apple Remote

Treat yourself or your friends to a show — hear music, view photos, or watch videos on your MacBook's ultrabright widescreen display from across the room.

What's in the box

- MacBook
- 60W MagSafe Power Adapter, AC wall plug, and power cord
- Lithium-polymer battery
- Apple Remote
- Install/restore DVDs
- Printed and electronic documentation

Configuration options⁴

- Memory up to 2GB
- Hard drive up to 200GB
- Apple Modem
- Video adapters
- MagSafe Airline Adapter
- Preinstalled Apple software

Included Software

Representative Bob Lynn
Alaska State Legislature
Alaska State Capitol
Juneau, AK 99801-1182

The Rabbit Creek School community has been very appreciative of your assistance with needed supplies and equipment in the past. You will recall you took pictures of our old lunch tables that made little “mountains” in the middle because they didn’t lie flat? Attached is a picture of our new blue lunch tables. Students love them. They’re a little larger so there’s less crowding, they’re safer and, of course, more attractive. We also thank you for support for new emergency packs for classrooms.

Priority #1	Curtains and carpet for our stage, to replace worn, torn, stained and very old existing gold curtains and carpet. <u>Estimate of \$12,000</u>
Priority #2	Adjustable chairs for our computer lab that will accommodate students of all sizes. <u>Estimate of \$3,000</u>
Priority #3	Laptop computers for classrooms. This reflects the ongoing need to purchase current technology. We are having a raffle drawing tonight that is expected to bring in approximately half of our goal. <u>Estimate of \$10,000-\$15,000</u>

We very much appreciate your attention to constituent needs, and we thank you for your attention to our school and community.

Mary Johnstone, Principal
Britt Leach, PTA President

April 13, 2007

Representative Bob Lynn
Alaska State Legislature
Alaska State Capitol
Juneau, AK 99801-1182

Dear Representative Lynn:

The Rabbit Creek School community has been very appreciative of your assistance with needed supplies and equipment in the past. You will recall you took pictures of our old lunch tables that made little "mountains" in the middle because they didn't lie flat? Attached is a picture of our new blue lunch tables. Students love them. They're a little larger so there's less crowding, they're safer and, of course, more attractive. We also thank you for support for new emergency packs for classrooms.

We spoke earlier in the year to Dirk Moffatt about our needs for this year. Working with our PTA, we have identified three needs for our school that will not be covered by regular school district funding processes. They are listed as follows in priority order:

- Priority #1 Curtains and carpet for our stage, to replace worn, torn, stained and very old existing gold curtains and carpet. Estimate of \$12,000
- Priority #2 Adjustable chairs for our computer lab that will accommodate students of all sizes. Estimate of \$3,000
- Priority #3 Laptop computers for classrooms. This reflects the ongoing need to purchase current technology. We are having a raffle drawing tonight that is expected to bring in approximately half of our goal. Estimate of \$10,000-\$15,000

We have attached our most recent supporting information, including estimates and quotes for these items. Our PTA President, Britt Leach, is also in contact with your assistant Mr. Moffatt to affirm these needs and the level of parent support.

We very much appreciate your attention to constituent needs, and we thank you for your attention to our school and community.

Sincerely,

Mary Johnstone, Principal

Britt Leach, PTA President
